Provider Search

The Provider Search displays information about providers approved by Division of Developmental Disabilities (DDD) to deliver services to individuals.

The website enables you to search or browse providers eligible to provide DDD-funded services. The option to search for a provider is by either name or service. A filter may be applied to identify providers by the served counties, one or more services and/or approved by Medicaid to deliver services. Medicaid-approved services are only available for individuals enrolled in the Supports Program or Community Care Waiver (CCW).

After a search has been performed, there is an additional filter that helps narrow the results further.

To access the website, enter the URL provided below in the address bar of your browser:
